What fees will I pay?

Morgan Creek Capital Distributors, LLC (MCCD) Broker Dealer Services	Morgan Creek Capital Management, LLC (MCCM) Investment Advisory Services
<p>As an investor you are subject to the costs and fees of any offering.</p> <p>MCCD does not charge you to invest through a private placement. MCCD is paid a sales commission by the issuer. Because it is paid a commission, the firm has an incentive to encourage an investor to invest in its offerings. This commission is not paid directly by you but is part of the offering price and paid by the issuer from the proceeds of the offering, but it still causes a conflict between your interests and ours.</p> <p>Commissions, fees and costs are discussed within the Private Placement Memorandum for each investment, which you should read carefully.</p>	<p>The principal fees and costs associated with engaging MCCM for investment advisory services may include:</p> <ul style="list-style-type: none"> ○ <i>Management/Asset Based Fees</i> ○ <i>Performance Based Fees</i> <p>Management fees can vary by fund, fund type, and fund strategy, but are generally payable quarterly in advance, based on a percentage (per annum) of the net asset value of the investor’s capital balance or the investor’s capital commitment. Stated management fees typically range from 0.25% to 2.00% depending on the fund strategy.</p> <p>Performance fees can also vary by fund, fund type, and fund strategy. Our hedge fund performance fees are generally paid as a percentage per annum of the total net profits allocated to an investor’s capital account, subject to a loss carry-forward, if the net profits allocated to such investor’s capital account for any fiscal year exceed a stated threshold annual return. Our private equity performance fees generally begin to accrue only after an investor’s rate of return on capital exceeds a stated preferred return. However, Morgan Creek does not collect carried interest on its private equity vehicles until distributions equal the full amount of the investor’s called capital plus the stated preferred return. Incentive allocations for hedge fund products range from 0% to 20% while the carried interest on private equity products typically ranges from 10% to 20%.</p> <p>In addition to management fees, fund expenses may include, but are not limited to, those associated with legal, accounting, audit, custody, trading, research, and tax services. For detailed information regarding our investment advisory fees and costs, refer to our Form ADV Part 2A.</p>

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Key Question to Ask Your Financial Professional

- ✓ **Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

What are your legal obligations to me when providing recommendations as my broker-dealer or when acting as my investment adviser? How else does your firm make money, and what conflicts of interest do you have?

When we provide you with a recommendation as your broker-dealer or our affiliate acts as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the recommendations and investment advice we provide you. Here are some examples to help you understand what this means:

Morgan Creek Capital Distributors, LLC (MCCD) Broker Dealer Services	Morgan Creek Capital Management, LLC (MCCM) Investment Advisory Services
<p>Because we are paid a sales commission when you invest in an offering, MCCD and its representatives have a conflict of interest with you.</p> <p>Our brokerage services are typically limited to private placement offerings and the distribution of our affiliates' alternate investment funds. Other broker dealers could provide a wider range of investment choices, some of which may have lower costs.</p> <p>Registered representatives providing securities recommendations may be registered with our affiliated registered investment adviser. This represents a potential conflict as the representative is registered to offer securities products through multiple entities.</p> <p>We recommend investments that are issued or managed by our affiliated registered investment advisor. We have a financial incentive to recommend such proprietary investments.</p>	<p>Certain MCCM employees are also registered-representatives of MCCD and may receive compensation from MCCD related to the sale of affiliated funds' limited partnership interests or shares (as applicable) and/or related to the sale of unaffiliated funds' limited partnership interests or shares (as applicable).</p> <p>Application of an incentive fee or incentive allocation may create a conflict of interest for MCCM insofar as MCCM has an incentive to making certain investments in funds that charge performance-based fees over funds that do not charge performance-based fees.</p> <p>Morgan Creek and its supervised persons may also have conflicts allocating their time and activity among affiliated funds and non-discretionary clients.</p> <p>To help you understand these and other conflicts that may exist, please refer to our Form ADV Part 2A.</p>
